

# USB 3.0 Dual Head Docking Station

The USB 3.0 docking station is a unique design for a computer that has extra connectivity demands. Through the docking station, you can extend the connection of a computer to more USB peripherals, Ethernet network, speaker and microphone using only one USB port on your computer. This docking station is built-in USB 3.0 ports which mean you can enjoy the super speed data transmission between USB peripherals. Besides, this product is fully compliant with the USB 1.1/2.0 specification. Your previous USB 1.1/2.0 devices can continue to function as usually. The video output is another feature. With the DVI (and HDMI® Dual Head Docking Station model only) port(s), you can connect more monitor, LCD or projector. The connected monitor can be configured to either mirror your primary screen, or extend the Window desktop allowing visibility of more applications at the same time. No more stacking windows within the confines of a single display.

As to the housing, aside from the impressive sailboat-like appearance, the upright design of the body helps to spare your desktop space. Most peripherals are connected behind while two USB ports and audio outputs are implemented on the front panel for easier accessibility. An industry standard security lock is also provided for anti-theft purpose. Enhanced expansion capability plus the stylish appearance, surely this docking station with video is the most versatile accessory that also complements your home or office space.

## System Requirements

The minimum requirements for the PC are:

- 1.6 single core CPU or higher processor clock. Intel Pentium/Celeron family, or AMD K6/Athlon/Duron family, or compatible processor
- 1GB of RAM
- USB 2.0/3.0 port
- 30MB of available disk space
- Windows® XP 32-bit, Windows® Vista 32/64-bit, Windows® 7 32/64bit, Windows® 8 32/64bit, Windows® 8.1 32/64bit, Mac OS 10.9

To play DVD on the extra connected monitor through docking station, in addition to the requirements above, the following requirements should also be met:

- With dual core CPU at 2.0 GHz processor clock

## Features

- Compatible with USB 3.0/2.0 specification
- Resolution up to 2048x1152
- Support audio 2.1 channel
- Support Gigabit Ethernet
- Support HDMI® 1.3
- Support BC 1.2 (only 1 USB 3.0 port)

## Package Content

- Docking Station x1
- USB 3.0 Cable x1
- Power Adapter x1
- CD (Driver and User's Manual) x1
- Quick Installation Guide x1

## Application
